

Several agency staff have reported that the “drill-down” functionality on several reports that have been traditionally used for the Civil Rights Compliance Reports have been working inconsistently. To assist with this reporting, we have added a new tab to CL Report 05: W-2 Participant Characteristics (W2D). This tab is called “Civil Rights Compliance Breakdown by Race”. The format of the tab matches the most recent version of the Civil Rights Compliance Report and includes the monthly breakdown as well as the unduplicated count of participants for the reporting period selected when the report was run. Hispanic/Latino is separate from race, so a participant who is White and Hispanic/Latino will now count as White as well as Hispanic/Latino (regardless of Race). For this reason, the data is slightly different than the racial breakdown on the prior tabs of the report.
